The Proposed Canal across the Isthmus of Darien

[From the New York Times of February 22d.]

During the last session of Congress, Senator Conness of California, procured the passage of a resolution calling for maps, reports and profiles of all the proposed ship canal routes across the Isthmus, in order to determine which is the most feasible, and what further surveys, if any, are needed on the part of the Government Rear Admiral Davis, Superintendent of the Naval Observatory to whom the resolution was referred after a careful examination of the whole subject concludes that the only routes worthy of especial examination are the San Blas Darien and San Miguel, and Congress, before it adjourned, voted $10,000 for this purpose.

The report of Admiral Davis, although brief, is full of facts and highly interesting information, and we advise our readers to give it a careful perusal, as the question of a ship canal between the Atlantic and Pacific oceans is of vast importance to the commercial interests of the world, and is attracting serious attention in this country and Europe.

It is surprising that while the world has been expending a vast deal of time and money to find a useless, impracticable "Northwest Passage" the Isthmus, if we accept Mr F M. Kelly's surveys, has remained almost unknown, and the question of where is the best and only line for a ship canal remains undecided Had one tenth of the money been expended in thorough surveys of the Isthmus long since we should have settled the question of feasibility and undertaking at least, if not have finished the canal Any one who will look at a map of the world cannot fail to see that this narrow strip of land is the only obstacle to short and early water communication with the Pacific ocean and the East India trade, which has never failed to enrich the nation that commanded it Cut this in two by means of a canal, and the long, dangerous and expensive voyage around the Cape will be avoided, and the trade of the Pacific brought to our very doors France and England, impressed with the importance of shortening communication with China and the East Indies, are pushing forward the work of canalizing the Isthmus of Suez, and why should we not do the same on the Isthmus of Panama? The sailing distance between New York and San Francisco would be reduced fourteen thousand miles, and the time to sixty days, and where vessels now can make but one or two round trips during the year, they then could make three or four. It is estimated that the value of ships and cargoes yearly afloat on the ocean, doubling the Capes, amounts to more than four hundred millions of dollars, and by the time the canal is finished this would be doubled. Beside this, there is a large coasting trade which never ventures around Cape Horn, but if the canal was constructed it would pass into the Pacific ocean and build up a trade that now has no existence. Small sea-ports and towns scattered along the Pacific coast, north and south of Panama, which now can hardly be found on the map, would be started into commercial activity and importance as if touched by an electric spark. Indeed, to use the language of an enterprising gentleman, who has devoted a vast deal of time and money to the subject, "the execution of such a work would place the United States geographically in the center of the trade of the world, and renew commerce on a grander scale than was ever known or conceived by the most sanguine and far-seeing man.

Of the three routes recommended by Admiral Davis, the San Blas is the only one that has been examined. This is the most direct and shortest of any on the Isthmus. Impressed with this important fact, Mr. Frederick M. Kelley, of this city, ordered a survey of it during the summer of 1865, and in the following winter completed an other, thus making two examinations of the route. The first was simply a barometrical reconnoissance, conducted by Mr. Norman Rude, civil engineer, in order to determine appropriate lights and distances, which proving satisfactory, a regular line of levels was run from ocean to ocean, with results as laid down on the profile of Admiral Davis' report. The distance is but thirty miles, ten of which is navigable river, thus leaving only twenty miles to be canalized Of this seven miles is a tunnel, which may be avoided by flanking the sugar-loaf shaped hills that traverse this part of the Isthmus. Mr Kelley's engineers were directed to run a direct line across the Isthmus, and hence they did not search to the right or left for a lower pass through the mountains, which the contemplated governmental survey will very likely find, as predicted by his engineers But this route as it now stands, is decidedly the most feasible of any made known to the public. Good natural harbors exist at each end, and the line traverses high, dry grounds, out of reach of the fearful floods which rush down the valleys and rivers of the Isthmus during the rainy season in sufficient force and volume to destroy any system of locks and dams constructed to make slack water navigation. Mr. Kelley's plans and estimates have been submitted to first class engineers in this country and Europe, and pronounced feasible for a canal deep and wide enough to pass the largest class of ocean steamers and sailing vessels during any state of the tides.

The Darien route has never been surveyed its entire length. The efforts of Gisbourn and Cullen, and the French, English and United States Governments, in 1854, failed to furnish any reliable data of the interior portions of this much discussed locality for a ship canal. Whether the route is thirty, forty, or fifty miles long; whether one or two ranges of mountains will have to be crossed, both requiring tunneling, and whether the Chucunaque river can be passed by a canal are engineering questions which nothing but a thorough instrumental survey will determine. The harbors at both ends are good, and the intervening country, so far as examined, is said to be suitable for canalling.

The San Miguel route, the third one recommended by Admiral Davis, commences from the right arm of the Gulf of San Miguel, and following along the Tuyra river, crosses over the Cordilleras, and strikes the Atrato above its mouth, and thus passes out into the Gulf of Darien on the Atlantic side of the Isthmus. This is much the longest of the three routes proposed, but it may, nevertheless, be the most economical and practicable

NATIONAL CEMETERIES.—A Washington correspondent of the Rochester *Democrat* furnishes the following information, from official sources:

There are, in the command of Gen Thomas, the following National Cemeteries

At Natchez, one of six acres, containing 2,500 dead.

Vicksburg, one of twenty five acres, containing about 15,000

Memphis, twenty five acres, about 15,000 graves, The dead from Columbus, Ky., to Helena, Ark, along the Mississippi, are gathered there. From Helena to Grand Gulf they are interred at Vicksburg

Corinth has one of twenty acres, containing about 6,000 graves

Pittsburg Landing, twelve acres and 4,000 graves. This contains the dead from up and down the Tennessee river

Fort Donelson, twenty acres and 3,500 graves, containing the dead of that field and all along the Cumberland below Nashville

Nashville, sixty two acres, 18,000 graves. This contains the bodies from many hospitals and a wide region of country.

Stone river, sixteen acres and 5,000 graves

Chattanooga, seventy five acres and nearly 12 000 graves

Knoxville, four acres and 3,000 graves.

Marietta, Ga, twenty five acres and 10,000 graves

Andersonville, about 15,000 graves

Millen, 1,000 graves—small enclosure.

Savannah, 2,000 graves

Cumberland Gap Ky, 350 graves.

Loudon, 300 graves

Mill Springs, over 500 graves

Perryville, 1,200 graves

Camp Nelson Ky 600 graves

Lebanon, 750 graves

In city cemeteries there are collected at Covington, Ky, 600 dead Lexington, 1,000, Richmond, 500, Danville, 400

At Columbus, Tenn., there are 1,200 graves

At Montgomery, Ala, about 500 graves.

In Mobile, 1 000 graves

The "noble reds," who are now so prevalent in Washington, look with delight upon the torments into which the ladies have converted their waterfalls These "simple sons of the forest," evidently imagine that the tuft of hair is raised to the position occupied by their own scalp locks as a compliment to them.

Our System of Education

[From an Eastern paper]

We do not believe in humbugs, whether they are exhibited under the management of the proprietor of a "moral" show, or backed up by clerical or scholastic authority. The pedantic are assumed sometimes by the instructors of our youth, and often by school committees and examiners, are disgusting to the possessors of common sense The tendency of much of our system of popular education, both for the young and the mature, is to make insufferable bores, pretentious pedants, or gabbling automatons of subjects In our common schools, or even our higher institutions of learning, the object seems to be to cram the pupil with a surfeit of dry, intellectual *pabulum*, and to teach him to vomit it forth on occasion with parrot like verbosity and persistency.

And there the education (what a name for the process!) ends The learned fools are thrust forth on the world, more ignorant than some of our juvenile boot-blacks, yet with a "finished education" They can talk glibly on all subjects but those which concern every day and general human life They can solve a problem in Euclid They can give you, at tongue's end, any amount of Greek and Latin and propound questions which no intelligent and sensible man cares to answer

The proper object of education is simply to fit the subject for some station in life, to make him a useful member of society, to increase his natural capacity, and train his natural ability, and thus to increase his usefulness in the world. All else dignified by the name of education is arrant nonsense and sheer humbug Every particle of useless knowledge acquired by the learner is but lumber and rubbish. To be valuable, it must be available and useful. It is of no benefit to any one but a pedant to know that which he can never use either for his own or others benefit.

The system commonly pursued is one of "cramming" Even "forcing" would be preferable But the object of many teachers seems to be to test the capacity of the pupil as they would test the capacity of a tank, or other vessel calculated for holding liquids, and weary, washy stuff they sometimes use for this purpose The very etymology of the word "education" ought to teach them better The word is *educo*, to "draw out of or from" or to "lead out." Education cannot give a pupil a new faculty. It can only develop those he naturally possesses. The "cramming" system is directly opposite to the true idea of education. Instead of drawing out or exercising the faculties or capacity of the pupil, it clogs and loads them with "line upon line, precept upon precept" until the poor subject is fit only for the exhibition of the school room examination, a mere automaton which answers to the touch of the performer or examiner.

The object of education should be a specific one. For all, no matter what may be their future pursuit or station in life, a certain amount of knowledge is necessary as a foundation or substratum for the edifice of valuable and practical knowledge hereafter to be erected. These first essentials having been attained, the pupil should be directed to such studies as are befitting his or her sex and his or her natural bent or *forte* The young woman needs no knowledge of geometry, navigation, or abstruse metaphysics, which she can never put into practice. The only conceivable reason for pushing these matters upon her apprehension is that the mind may be disciplined to receive and comprehend such branches of knowledge as may be useful. Yet we were told once by a young woman, nineteen years of age, that she studied in the High School she attended, Geometry, with its branches of Mensuration and Surveying, and Astronomy and Physical Geometry, with their kindred branches of Navigation! Does any sensible person imagine that the young lady would ever be required to survey land or calculate the capacity of any vessel or body, or that she would ever be asked to steer a ship across the Atlantic? Of course not.

The Philadelphia *Press* has been showing up this effort for the "diffusion" of useless knowledge in several articles, which exhibit its fast in regard to the course pursued in that city in the examination of candidates for admission to the high schools, that are calculated to provoke the laughter if not raise the ire of common sense people From one of the articles we copy the following:

On Friday, the girls were subject to a second examination in Mensuration. We should be glad to learn why girls, young or old, should be afflicted with the study of such, to them, a useless branch of practical science. Worcester's Dictionary defines Mensuration as "The act of measurement," and as "Act or art of ascertaining the area of surfaces, and the extension, solidity and capacity of bodies, by measuring lines and angles. Practically, Mensuration is the portion of geometrical science by which a land surveyor does his very useful work. But what girl, what woman in the land ever was a land surveyor? Not one Therefore teaching Mensuration to them is a very needless thing. The other day one of the simplest questions put to them was to define a parallelopedon, a rhomboid and a prism. What is the use of their knowing this?

On Friday one question put at the girls' examination was. "Define cariuse, rhombus, altitude of a triangle, obtuse-angle triangle and diagonal." The next required the poor children to "define trapezium, diameter, octant and similar triangles." Another question was "the area of a farm in the form of a trapezium, is 54 acres, 2 roods, and 30 perches, and the perpendicular falling from two of its angles upon the diagonal are 75 and 65 perches, what is the diagonal?" But the crowning imbecility of that day was the following: "How many times will a carriage wheel, which is 3 feet 9 inches in diameter, turn round in going 58,995 miles" What does it advantage any one to answer this ineffable piece of useless puzzlement?

It is very palpable that our public school system, which not only authorizes, but insists upon, girls studying mensuration, mathematics, moral philosophy and so on, must be wholly reformed and remodeled The professors and other teachers, whose merits we did not challenge, would be immensely relieved by the change

WHAT DOES IT MEAN?—The Cincinnati *Gazette* raps the Democracy of Ohio smartly over the knuckles for its twaddling resolutions It says

What does its resolution about State "Rights" mean? Is it the right of secession, or the right of each State to decide for itself the question of the constitutionality of the national law? Then why not say so? We have seen its outcome, and the Ohio Democracy have not a word to say against the legitimacy of this result of Democratic principles

Having plunged the country into a terrible war which called forth a million of loyal men to the slaughter, and which cost the country three millions of dollars per day, the guilty party deprecates the corrupting tendency of the collection and disbursement of enormous revenues Having fastened a national debt upon the people which will bear down their necks for many generations, the Democracy resolve against a national debt.

Having increased the nation's pecuniary necessities, until the need of revenue has overwhelmed the question of protection, the Democracy resolve against protective tariffs Having carried on a great war for five years to destroy the National Government, the Democracy resolve against usurpation. It resolves against unequal taxation, by which it means all taxation, for it stands by voted against every revenue measure all through the war.

It resolves that each State has a right to determine the qualifications of electors Does this mean that a State may disfranchise its people? It resolves against military trials of rebels, when it has persistently opposed all punishment of them Its resolution as to the rights and immunities of the rebel States, is merely the sympathy of confederates And as to its threat, the disciplinary government that the rebel States would not submit to, we heard the threats of Northern Democracy all through the war, and we know how far their treasonable desires outran their valor in performance

It was never yet known that the Democratic party resolved any thing in favor of human rights All its declarations of State Rights were to take away the rights of men, All its declarations of the sovereign power of the State over the franchise of their citizens, are to the end of disfranchisement. And all its declarations of State Rights unimpaired by rebellion, are to give immunity to traitors for their crimes, and to give them the power to oppress the loyal citizens Party Democracy is still the same; it resolves nothing for national preservation, nor for popular rights. It is all for despotism, treason, stratagem and spoils.

(DISPATCHES TO THE OREGONIAN.)

DATES TO APRIL 4.

Union Convention in Arkansas.

NEW YORK, April 4.—The *Herald's* correspondence from Little Rock, Ark says the Union State Convention is in session The platform is of an ultra Radical character A Central Committee has been appointed to perfect the organization of the Union party Gen Ord heartily approves of the object of the Convention, and desires to co-operate A large meeting of freedmen was held the same day. No disturbance was created

Affairs in Mexico.

NEW YORK April 4.—The *Herald's* San Luis Obispo letter, dated March 9th, says Escobedo writes that on the 6th he closed his lines around Queretaro. He expected to be ready for the assault to-day He thought it would require only three or four days to finish the work To-day clouds of dust were observed, and it was thought the Imperial army would give battle but it retired as it would have been flanked There is great discord and division of opinion among the Imperial officers. The army is almost starving.

Washington News.

CINCINNATI, April 4.—The *Republican* says that Rousseau's confirmation is doubtful Most of the military committee of the House have withdrawn their recommendation It is said Rousseau has offered to take the stump in Kentucky against the President

Richard Parsons, of Ohio, has been sworn in as U. S. Marshal for the District of Columbia.

It is stated on high authority that the Attorney General has written an opinion that Sheridan had no right under the Reconstruction Act to remove municipal officers in New Orleans. Sheridan's official report has been received. He states that unless prevented by the Washington authorities he shall remove many more officers It is impossible to carry out the law without doing so

Advices from Richmond say the Connecticut election has been used with great effect against the Reconstruction act

WASHINGTON, April 5.—The Senate has confirmed George McLean as receiver of public moneys at Helena, Montana, and rejected the nomination of Isaac J Moore, as Register of the Land Office at the same place

CHICAGO, April 4.—The *Tribune* says the supersedure of Sheridan is limited to some quarters.

Johnson has withdrawn the nominations of several Republicans It is stated that hereafter no Republicans can be nominated

The *Times* says the members of the House Judiciary Committee state that a final report on impeachment will be agreed to before Friday Should the majority of the Committee favor impeachment, a summer session will be held The radicals believe the report will favor impeachment

It is stated that the Committee on Foreign Relations have decided not to report the Russian treaty at present.

GREELEY, editor of the *Agriculturist*, is a prominent applicant for the position of Commissioner of Agriculture The President has determined to remove Commissioner Newton

The *Anglaise* says Seward announces that ex-Senator Foster will be nominated Minister to Austria this week

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, April 7.—No eastern news has been received to-day Both lines down east of Julesburg

Gold remains quite steady, closing last evening at 134½; Sterling, 108¾

Legal tenders are quiet at 74½ buying and 75 selling The *Lurline* has arrived from Honolulu with one week later date The news is unimportant.

The Savage Mining Company have declared a dividend of $100 per share, payable on and after the 10th inst.

The Pacific Insurance Company declared a quarterly dividend of 6 per cent., payable on and after the 10th instant.

The dead body of an abortive child was found on Mason street, between Fourth and Fifth, carefully sewed up in a piece of cotton silk, and wrapped in fine white cotton cloth.

The Democratic State Central Committee will meet in this city on the 15th inst W T Coleman being absent, John H. Baird or J. U Good, Vice President, will preside

The steamer *Idaho*, which left Portland April 2d, arrived here to-day

The collectors appointed by the Executive Committee of the Southern Relief Fund are reported as meeting with success in their collections. One collector proceeded contributions of money yesterday to the amount of $8,500, another, $1,800 It is stated that nearly $2,000 was subscribed yesterday, which, added to the previous subscriptions, would place the fund at about $20,000, exclusive of what has been collected to-day

The buildings of the Pacific Woolen Mills were, on Thursday evening, lighted up by gas made on the premises by a new patent process This gas, which is known as Easley's Economical Gas, was invented in the United States and patented in 1866. It is made from grease, bones, waste from woolen mills, clippings, etc, in connection with firewood, the result being a gas that needs no purifying process and gives a most brilliant flame The gas made by this process is claimed to be the che

The Daily Oregonian.

MONDAY MORNING, APRIL 8, 1867

False Hopes

It is stated that the result of the Connecticut election has caused a reaction in the South against the acceptance of the reconstruction law. What folly could be ranker than a sudden change of feeling and purpose, based on so groundless a hope as that this election indicates an abandonment by the North of its fixed resolution? Look at the facts Last year the Unionists carried Connecticut by the meagre majority of 511 votes This year the opposition obtain 975 majority Supposing that the full vote of the State was thrown on each occasion, this would indicate a change of only 710 in an aggregate of 88,000 But there has not been even so much change as this. When the full returns are published it will doubtless appear that the Unionists polled their usual vote, and that the gain of the Democrats is owing entirely to the extraordinary exertions of the President and his subordinates in department al positions. It was known that the State was very close, and that the introduction of a few hundred Government employees would suffice to carry it. It is a notorious fact that the Democratic vote of Philadelphia was increased fully 8 000 last fall by similar means —chiefly through the agency of the Navy Department This advantage of a few hundred votes in Connecticut does not does not weigh a feather against the overwhelming Union majorities of the North. Oregon is the most evenly balanced among those St , and a Democratic gain here proportionate with that in Connecticut would not even give them Oregon. If the Southern people rely on this demonstration by their Northern allies to help them out of their difficulty, the hope is vain It is not the first time the Copperheads have promised to help them and failed. It is not the first time the South has taken courage from these promises and resolved on further resistance, only to fall helplessly under the crushing weight of Unionist power, and afterwards to repent bitterly of the blind folly of listening to such pernicious A . The offer of help held out to the South by this Northern party is but

> A pleasing sorcery that can charm
> Pain for awhile or anguish, and excite
> With airy hope and arm the obdured breast
> With thoughts of future patience,—

but which can never accomplish the deliverance of this rebellious people, or result otherwise than in their own humiliation or destruction. Such have been the results hitherto of similar action, and such will be the results hereafter. The Democracy are not able to help the rebels to a triumph, and experience has long ere this have taught the latter the folly of leaning on this broken reed.

A Happy Illustration.

Probably one of the best illustrations of the comprehensiveness of Democratic principles that has yet been seen appears in the "organ" leading Journal of Saturday. To establish this fact, let us go back to the days of Jefferson to those of Buchanan when preservation of the Union was one of the chief objects dearest to the heart of every true patriot.

Two or three lines further on in the same article the following sentence occurs.

"There were Democrats, honest and true, who sincerely believed that a State had an indefeasible right to secede from the Union.

That's it exactly. The inquiring disciple has a right — to investigate for himself and take his choice. First, the preservation of the Union has always been the leading article of the Democratic faith, and the "object dearest to the heart of every Democrat," second, there were plenty of Democrats who "sincerely believed" the third theory of our Government is to be that States have the right to secede and destroy it, and that it was no rightful power to preserve its own existence. Either of these ideas, it appears, is in keeping with modern Democratic principles. Nothing could more perfectly illustrate the chameleonic nature, or rather the elastic principles of these principles, than this view. A State has no right to secede from the Union. That is Democratic A State has an "indefeasible right" to secede." That is Democratic too, and a little more so than the other. It must be gratifying to the faithful to learn that either view is in accordance with the "eternal principles." They must be delighted to hold fellowship with a party that can speak a broad, liberal view of the greatest political question that ever agitated our country.

It is another proof that their's is "a party of principle." Does a man believe in the perpetuity of the Union? He may be tolerated in the Democratic party. Does he believe in secession? He is a Democrat, "honest and true." So says the wise man of the "organ." And who shall have the temerity to doubt when the oracle has spoken?

A VALUABLE BOOK.—Frank Moore's collection of "Anecdotes, Poetry and Incidents of the War, North and South" has been gotten out in superb style, and may be had of F. Roman, of the First Street Bookstore An opportunity is here offered to obtain copies of this book without being compelled to wait till they can be furnished by agents. The volume is of large size and contains a great variety of the most remarkable incidents of the war, with splendid battle descriptions by the most popular writers of the time, interspersed with popular songs, ballads and other pieces of versification. Most of the contents of the book are of permanent value The style of the volume before us will bear comparison with that of many works which are esteemed fit to adorn the parlor table

They are fine fellows to be ranting about the "Coolie question" and pretending to be in favor of high wages for labor, who all their lives have advocated slavery, which means compulsory labor without any wages at all!

[For the Oregonian.]

Democratic Organization vs. Democratic Education.

Holy Writ says: "Though thou shouldst bray a fool in a mortar, yet will his folly not depart from him" The meaning of which is that some people can never be made to learn anything. They are incapable of being taught. We see examplifications of it every day of our lives The *Herald* of Saturday is a case in point. Its editor, evidently, lives entirely in the past. The world was completed, the philosophy of history and of government was perfected, the day that Mr Brown "finished" his education! Party organization and party drill, that were all power fut in the years of Mr. Brown's apprenticeship to Democracy, are all powerful still! Their revolution that has just passed over the country, disintegrating parties and unbinding the allegiance of partisans, has taught party drill sergeants of the Brown stripe nothing With them it is still the old cry of "organize the party," "vote the regular ticket," "inculcate Democratic papers." They forget that the days of party-drill—at least of Democratic party drill—went out with the administration of Mr Buchanan These days are past, never to return. The revolution has done something else besides abolishing slavery and quieting secession It has revolutionized public sentiment, and it has entirely changed the habit and thought and action of parties. "The good old days" of party drill and party excitement, when there was a power in the appeal to "vote for the regular nominees" are gone. The age of party drill and blind impulses has been succeeded by an age of action based upon thought We have, to-day, at the confluence of two great historical times in the history of political parties as well as in the civil history of America. As out of barbarism arose feudalism, and out of feudalism arose constitutionalism, and out of constitutionalism arose republicanism—as the age of commerce grew out of the age of chivalry, so the age of action based upon thought, is now succeeding the age of action based upon party drill in the politics of the United States. Mr Brown, bred in the old school, and not appreciating the importance of the revolution that has passed over the country during the last few years, is slow to learn this fact So is his whole party slow to learn it It is doubtful to my mind whether they are capable of learning it The leading minds of the Republican party learned the lesson in adversity long ago. For more than sixty years the Democratic school of politicians struggled to stamp its "image and superscription" on the political life of the country The instruments with which it tried to accomplish this purpose were party drill and organization—not educational agencies It succeeded in holding power and office but made little or no impression upon individual or social character On the contrary, its opponent—whose head was in the North, as the brain of the Democracy was in the South—neglected party drill, but gradually gathered to itself the educational institutions of the country—the intellect, energy and mind of the land—and, by that means, learned to rule the social life of the people The result was seen as soon as the convulsion of 1861 roused the masses The results of their instincts, education and surroundings manifested themselves Party drill and "Democratic organization" were crushed in pieces before the advancing columns of the educational institutions Can Mr Brown, and the party drill Sergeants learn nothing from that very instructive lesson? In every party there are two classes of men—those who regard it as the peculiar mission of the party to get offices and emoluments for individuals, and those who regard it as the mission of the party to propagate correct principles of the Government, suited to the condition of the governed The tone and temper of the *Herald* would indicate that its editor belongs to the former class A judicious party editor must blend the two characters in one—letting the latter character predominate a little. For instance, that is Mr. Greeley's character. It is not Mr Raymond's Greeley will live in history, whereas, a year after Raymond's death, the world will have forgotten that such a man ever lived

The struggle going on between parties to day in this country, is not so much a strife for partisan or sectional ascendancy as it is for the formation of a national character—or rather for who shall have the formation of that character. The victory will incline to the side that possesses the preponderance of the literary and educational institutions of the country—not to the side most efficient in party drill and organization The old Democracy could never be made to understand and appreciate that fact Can the new? If Mr Brown and the *Herald* are specimens of the new, the answer must be "doubtful" They can't be made to understand that the sword which General Lee surrendered to General Grant at Appomatox Court House was the sceptre of the old partisan Democracy.

A STRANGER "DEMOCRAT."

LETTER FROM YAQUINA BAY

NEWPORT, April 2, 1867.

March, with its frosty nights and sunny days, has gone. And never before, perhaps, did such a March visit the misty shores of Oregon. Instead of storms, bluster and variableness, the usual characteristics of the month, the temperature has been warm and the weather exceedingly pleasant. The first of the month was rather cold for the season, but toward the last, it moderated into real spring There was twenty six days of bright, clear weather, and the remainder were not very unpleasant.

I have just returned from a ramble on

SOUTH BEACH,

which is a continuance of the ocean shore, southward from the mouth of the Bay. Bordering on this beach, is a small district of country formed of sands from the sea, and somewhat resembling "Clatsop Plains," though, seemingly, of more recent formation, and far less in extent The soil is thin, but bears pretty good grass, and is partially covered with dwarf pines, many of which bear seed cones when not more than two feet high. It is a novel sight to see these trees in miniature, loaded with cones as large as those on great trees. I also found there many beautiful evergreen shrubs, among which were species of laurel, the evergreen whortleberry, (a beautiful shrub that bears full of small black, sweet berries, that ripen late in fall,) and the manzanita, which is now in full bloom At the south end of this plain Mr. Wilcox is building a sawmill on a pretty little stream that falls into the ocean at that point. Still farther down the beach, near Seal Rock, another stratum of coal has been found, and it is said to be three feet thick, and of good quality It is about twelve miles south of Yaquina Bay.

NEWPORT

Is situated on the north side of the bay, about a half mile from the ocean, and commands a fine view of the "deep heaving sea" It is founded on the ruins of an Indian village, the only relics of which are the holes in the ground where their wigwams stood, and the hundreds of wagon loads of shells, where these dusky children of the forest have, for ages on ages, fed upon the delicious bivalves, so abundant everywhere in the bay. This pleasant little town has a good hotel, a store, and twelve or fifteen other buildings, and is the favorite resort of the people of central and upper Willamette, hundreds of whom come here in summer to spend a week or a month for health and recreation. Her central position and convenience of access—her fish and her bivalves—her beautiful scenery and salubrious climate, will make her the Newport of Oregon. But why did her founders follow the contemptible, aping practice of naming after some other Newport? Such is the case with half the towns in the State. There are plenty of local and Indian names that would be far more appropriate than any namesake name, besides, originality is preferable to mimicry. While standing on the highest bank of Newport a few evenings ago, to watch the sun set behind the sea, I espied a Portland and San Francisco steamer passing southward, about six or seven miles from land. I watched the majestic craft, silently pursuing her lonely way, till she passed behind the dusky curtains of night. What a grand triumph of art is an ocean steamship! so graceful, as she glides over the placid sea, "like a thing of life"—so mighty, when like an angry giant, she fights her way through the maddening billows, bidding defiance to the wrathful storm. The

GOLD

excitement at this place is probably worthy of notice. Last week a number of persons, after prospecting on the Bay shore near the mouth, and on the North beach to Cape Foulweather, (4 miles North of Yaquina Bay) found gold in sufficient quantities to induce them to take claims, and organize a mining district. A description of the district has been sent to the county clerk to be recorded, as the Newport Mining District The best prospects are found on the beach, but gold is also found in the hills, though not so abundant Those mines were worked as early as 1857, but as they were on the Indian Reservation, the work was discontinued until last summer, Messrs Lane & Co took up claims on North beach about a mile from Newport, where they have been mining ever since. The particles of gold are very small and difficult to save, but experienced miners, with the necessary implements and plenty of water, can make five dollars per day to the hand in the best claims. About twenty claims have been taken Further developments of the coal mine on Depot slough of the most flattering character are being made. There is scarcely a doubt that we have extensive coal fields, of easy access, and of the best quality.

F W. G

AN ANECDOTE OF EARLY TIMES IN MONTANA. Sitting in "Mack's" room the other day, where he is industriously engaged in compiling his history of the early settlement of the Rocky mountains, the following anecdote was observed on a stray leaf of manuscript, which we insisted on transferring to our note book

Judge W B. Dance was returning from the humbug "stampede," known as the "Boulder Diggings," on the 11th of August, 1862, having been but a short time from the East, and knowing but little practically about mining. As he was sitting on the bank of a mountain torrent, washing his blistered feet in the ice cold water, an old gentleman, evidently "down to the bed rock," financially, came along and entered into conversation with him He told the Judge he "knew the richest thing in the world" about one hundred and fifty miles from there, "a very rich quick silver mine—very rich, indeed," and if the Judge would furnish horses and "grub," they would go and take it up, etc After talking the matter over awhile, the Judge almost agreed to the arrangement, but, to be sure he would not be "bilked," he asked

"Now, you're certain it's as rich as you say?"

"Why, yes," said he, "there can't be no mistake, for there is a stream of pure quicksilver running out of the rocks as big as my little finger"

The Judge grabbed for his old boots, and, as he was hauling them on remarked:

"Old man, that's a little too d rich for my delicate constitution Good bye"

The Judge admits he was "green," but not verdant enough for that quicksilver creek to run through him —*Rocky Mountain Gazette.*

A Mobile paper tells of a destitute German woman there who raffled off her baby. She realized $25 by the operation, and the infant fell to an old bachelor, who, having none of his own, will adopt it

STATE ITEMS.

Cooper, indicted at Albany from assault with intent to kill has given bail for $2,000 and is now at liberty

A dwelling house at the Dalles belonging to J M Ward, was destroyed by fire last Tuesday Loss, $1 800

The *Mountaineer* states that considerable numbers of people are going over to Yakima valley to engage in farming and stock raising.

Lieutenant Jas Halloran of this State, has passed the Board of Examination at San Francisco and sailed for New York to join his regiment

A Jacksonville paper states that a San Francisco company has purchased the famous gold quartz ledge on Jilt hold river, in Josephine county, for the sum of $35 000

A man named James Vincent was stabbed by one Henry Brown in Jackson county, a week or two ago The *Press* mentions this fact but does not state whether the wounds inflicted are of a serious nature or not

The *Enterprise* says that Waconda will be made a station on the line of the State Telegraph Company, the present month and an operator will be at once sent there or employed from among the citizens of that place

The following city officers have been elected at the Dalles: O Humason, Mayor; T J Calhoun, Recorder; C H Keeler, Marshal, F Bonn, Treasurer; George Thacher, N H Gates, H J Waldron, C S Savage and E Wingate Councilmen

From the Dalles paper of Saturday we learn that Captain John Darrah arrived at that place last Friday from the Warm Spring Reservation, where he left the command He says the day they left their winter camp they saw fresh signs of Snake Indians.

The following is the report of the Dalles public schools J D Robb Principal, for the month of March, 1867 Grammar Department—Whole number of scholars, 64 males, 30; females 28, daily average attendance 49 Intermediate Department—Whole number of scholars 68, males, 40; females 28 daily average attendance 61 Primary Department—Whole number of scholars 75 males, 47, females, 30, daily average attendance 56

The Albany *Democrat* says that the contract for building the college at that place has been awarded to Berry & Co Their bid was $7,390 The building will be of brick, and is to be completed by October next It will be 50x60; two stories high; lower story 10 feet in clear, upper story 18 feet. Below will be two school rooms, each size 30x25, and two recitation rooms Above will be one large room, 30x50, designed for a library and apparatus All to be whitewashed to bottom of windows, and lathed and plastered Cupola in center From the ground to top of cupola to be some 70 feet!

From a letter written from Canyon City, to the *Mountaineer* we extract the following On Friday evening March 25th, a meeting was held at the Court House in Canyon City, which was largely attended by our citizens, to consider the best means for the development of our quartz Speeches were made by practical men, and a plan suggested which, we think, deserves and will meet with success, namely, to incorporate a company to be known as the Grant County Quartz Mining and Milling Company, with a capital stock of $20 000 consisting of two hundred shares—the object of the incorporation being the erection of a quartz mill at Elk creek to crush quartz for lead reward for reward The meeting appointed a committee to prepare articles of incorporation and to report on Tuesday eving, April 2d to which time the meeting adjourned. There is no doubt but that most of the stock will be taken here, but, if there should be any left, we hope it will be taken up by Dalles citizens, who, we trust, will feel that their interests in this matter are identical with ours It is thought that assessments to the amount of forty per cent on the capital stock will put a mill of ten stamps in successful operation by the 1st day of next August—we having the motive power already here

Tennessee.

[From the Chicago Tribune.]

After a long struggle between the pride of one's and the principle of equal rights, the loyal white men of Tennessee have finally resolved to admit their loyal colored allies to a participation in the Government of the State They were powerfully influenced in coming to this conclusion by the fear—horror it be called—of falling under the rule of their implacable enemies, the rebels. The blunder of the Union men of Maryland was before their eyes, a blunder not to be repented by them on their peril. And now that the decisive step has been taken and the white Unionists breathe easier and feel that their future safety is insured. With this powerful reinforcement they are able to defy the Copperheads and rebels They can meet their opponents at the polls, and in every part of the State cast vote against vote. The beauty of the political situation is, that in those portions of the State where the rebel preponderance over the white Unionist is greatest, and where help is most needed, there the colored voters are to be found in the greatest number Take for example, the county of Shelby, in which is the pro slavery city of Memphis According to the census of 1860, it contained 30,863 whites, and 17,000 colored inhabitants The proportion of the latter class is now considerably larger than it was seven years ago, but on the former basis there would be 5,500 white voters, and 3,200 colored. The white Union strength is about 1,500, which, added to the colored Unionists, make 4,700 against 4,000 disunionists. White Unionmen can therefore "come out of their holes," hold up their heads, and confront their disloyal opponents with hopes of success.

Nashville, the State capital, is another important point which can be redeemed from rebel control The whites number 31,000, of whom one third are loyal, and the blacks 16,000, who are all loyal. Here the 5,800 white Union voters will be reinforced by 3000 colored votes Even loyal and steadfast Knoxville, the home of brownlow Brownlow, has secured an accession of 500 black Republican votes.

The Western Congressional district below Cairo formerly represented by the apostate Emerson Etheridge, and now by the gallant Colonel Hawkins, is badly disloyal on the white basis, but the 4,000 loyal colored men in the district will secure a majority for the Republican ticket In spite of all the disfranchised rebels who may illegally vote The Sixth (Clarksville) District, with the exception of the Memphis district, is the worst rebel region in Tennessee. It is now represented by that Prince of Tennessee Radicals, Hon. S M. Arnell, whose election was secured by a wholesale disfranchisement of the disloyal element. On the direct vote for and against secession in the spring of 1861, it voted for secession 14, 123 to 3,028 for the Union The district contains 8,000 colored voters who will support Arnell's re election in solid mass, and with the 3,000 white Radicals in the district, can elect him, even if every unkilled rebel should be allowed to vote against him. The Memphis District cast 15,967 votes for secession to 818 for the Union; but a reign of terror existed, and loyal men voted their sentiments at the risk of losing their lives. One county—Fayette—voted, secession, 1,304; Union, 23. It contains 8,286 whites, and 15,573 blacks, and will now give at least 1,400 Republican majority. Madison and Tipton counties have as many colored voters as white ones, and in the whole District they equal three-sevenths of the population, and can cast fully 13,000 votes, which joined to the 4,000 white Union votes, will beat the 14,000 rebels, even if they should all get in their tickets.

This it is seen, that the Enfranchisement bill, which has just become a law, rescues Tennessee from the imminent danger of falling into the hands of the implacable and persecuting enemies of the Union, and lifts her to the plane of reliable Republican States This wise and provident act was performed, in spite of the utmost efforts of Andy Johnson put forth to defeat it, whose purpose was to enfranchise the rebels and disfranchise the Unionists, and trample out of existence by persecution and terror the last remnants of loyalty in the land of Andrew Jonkson. But the spirit of old Hickory still lives among the old dregs of his followers, and after a most bitter struggle, achieved a victory over disloyalty and prejudice, which casts in the shade any act of political progress performed since the Emancipation Proclamation

NEW MINES IN SOUTHERN OREGON.—We obtain the following from the *Southern Oregon Press* published at Jacksonville.

The reports from the new gold regions recently discovered in the northern part of this county continue of the most flattering character That our readers may be better posted in the matter, we will briefly state how the discovery was made It seems that a German, named Wines, who lived for a short time last Summer with Mr B. W. Griffin, near this place, started in, last Fall, to prospect on Jump off Jo creek He commenced operations higher up the creek than work had ever been done before, and was rewarded for his enterprise by finding that the higher up he went the better the prospects were, till, having struck diggings that would warrant working without wasting any more time, he commenced operations with a rocker, and the result was so satisfactory that he determined to stick to it He built a cabin; came to town on Island in search of provisions, and after informing Mr Griffin's family, and other acquaintances, of his success, started back. Little attention was paid to the reports he made, until recently, when it was found out that he had quite a "good thing" A week or two ago several miners from the neighborhood, and Mr Sextant went up and located claims above and below that of Mr. Wines It seems that Mr Sextant sunk a small hole on his, immediately below that of Mr Wines, and out of this hole he panned a piece weighing $13, besides several dollars in fine gold Mr Wines is said to have rocked out some twenty six ounces during the winter, only a very small out on his claim having been worked The location of these mines is about twelve miles above where the stage road crosses Jump-off Jo creek The formation is a sort of marshy basin, or bar in the creek, the extent of which is not accurately known, but is yet only estimated at from four to seven miles long Claims have been located for about a mile along the basin, despite the great depth of snow covering the ground from three to six feet—in all of which large prospects have been had—fully sufficient, it is reported, to warrant the assumption that they will prove good "ounce diggings" If this is so, and the region should prove as extensive as some think it to be, it will throw Idaho and Montana in the shade, and prove a source of incalculable wealth to this portion of the State Gold has long been known to exist in this belt of mountains, but the "pay streak" seems to have been lost until this recent discovery, although fabulous stories of immensely rich diggings having been discovered and lost in these mountains have become traditionary among our old settlers. Upon recent discoveries will probably give increased impetus to prospecting in this region during the coming summer, and we hope the expectations of the prospectors may be fully realized

The cession of Russian America and adjacent islands to the United States creates quite an excitement amongst the public but KOHN & MICHEL, No. 113 Front street, are creating a greater excitement amongst the high priced houses in this city by letting the public know that they are selling good Davis & Jones white shirts for $2 50 Shaker flannel undershirts and drawers $1 50, the best Merino undershirts and drawers $1 to $1 50, fine, French flannel pants $5, splendid cassimere business coats $8 to $12 good suits from $8 to $25 magnificent black dress suits $30 and all other goods at comparatively low prices

NEW ARRANGEMENT.—THROLD BUCHTEL & CARDWELL PHOTOGRAPH GALLERY 89 First Street, has passed into the hands of JOSEPH BUCHTEL, Proprietor and Operator, who, having just returned from San Francisco, with ALL THE LATE IMPROVEMENTS is prepared to take every style of picture known to the art

MARRIED:

By Rev O H Atkinson, at the residence of Stephen Coffin, Esq, April 6th 1867, Mr N Thirlng to Miss Clara Hill, all of Portland No Cards Compliments of the parties received

NEW TO-DAY.

THE COLUMBIA AND Montana Stage Line!

BETWEEN

WALLULA AND PEN D'OREILLE LAKE

CONNECTING WITH THE LAKE BOATS

A CONNECTION WILL BE MADE from the terminus of the Lake Boats on Clarke s Fork to Missoula, (whence Stages run to all the principal parts of Montana,) as soon as the roads are open for travel

Mr W G PAINTER is now on the ground to perfect the arrangement

A Through Brace CONCORD COACH leaves Wallula EVERY WEDNESDAY for the Lake

TIME—THREE DAYS;

FARE—$30.

FAST FREIGHT—Ten Cents per lb

The Line runs direct from Wallula to the Lake, via the Walstucna road, which reduces the distance to 170 miles from 200 by the old circuitous routes, and enables the trip to be made in three days

ap8dtm ALVAN FLANDERS, Agent.

Copartnership Notice.

GOVERNMENT PROPOSALS.

CAPE DISAPPOINTMENT, W. T.
April 5th, 1867.

SEALED PROPOSALS WILL BE RECEIVED BY THE undersigned at his office at Cape Disappointment, W. T., until 12 o'clock M., on the 4th of May, 1867, for the supply of FORAGE and STRAW for use at this Post during the year commencing July 1st, 1867, in quantities as follows:

Thirty seven (37) tons of HAY in bales.
Fifty six thousand (56,000) lbs of OATS in sacks.
Sixty (60) tons of STRAW in bales.

The articles to be of good marketable quality and delivered at the Post in such quantities and at such times as may be required

Bids must be in duplicate and accompanied with a guarantee, signed by two responsible persons, that the contract will be executed should the bid be accepted; they must also state the price per POUND of OATS and per TON of HAY and STRAW, and will be received for the whole or any one or more of the articles

Payment to be made at the end of each month or when funds are on hand for that purpose; in coin or its equivalent to U S Legal Tender

Contractors will be required to give good and sufficient surety for the faithful performance of contract and both contractor and sureties will be required to take the oath of allegiance.

Bids to be marked on the envelope, "Proposals to furnish FORAGE and STRAW," they will be opened on the expiration of the time for receiving them, when Bidders are requested to be present This right to reject all bids is reserved.

Lieut 3d Art'y, A. A. C. M

Sheriff's Sale.

BY virtue of an execution issued out of the Circuit Court of the State of Oregon for the county of Multnomah, to me directed, in favor of Benj R. Biddle, and against Joseph Delay, John Mack, and P. L. Pearson, for the sum of two hundred and eighty nine dollars and twenty cents ($289 20) interest and costs, I have this 5th day of April, 1867, levied on that certain piece and parcel of land lying and being in Multnomah county, known and described as the donation land claim of John Mack, in section 17, T 1 N., R. 1 E., containing 240 acres; and on Monday, the 6th day of May, 1867, at the hour of 10 o'clock A M., in front of the Court House door, in said State and county, I will sell the same (or so much thereof as shall be necessary to satisfy said execution, interest and costs) at public auction, to the highest bidder therefor in U. S. gold coin

SAN FRANCISCO ASSAYING AND REFINING WORKS.

No. 416 Montgomery Street,

(Successors to Kellogg, Hewston & Company)

CAPITAL STOCK, $1,000,000!

Directors:

JOHN PARROTT, CHAS. R. McLANE,
WM C RALSTON, A HAYWARD,
LOUIS A. CARNITT

LOUIS A CARNITT President and Manager
JOHN HEWSTON Jr Chemist and Superintendent.

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world and secures to the mining interest of this coast an important increase in both the mining and commercial value of bullion

Their charges hereafter will be as follows:

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS

One eighth of one per cent (heretofore a quarter) for all amounts over $1,000, and two dollars for any smaller sum. Returns made in twenty four hours

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS

Two dollars for the gold contained, up to $1,000 and one-eighth of one per cent, for all amounts over that sum, and one per cent on the silver contained Returns made in twenty four hours

FOR REFINING DEPOSITS MADE FOR COIN OR BARS

On bullion under 900 parts gold, 2 cents per ounce
On bullion from 900½@750 parts gold, 4 cents per ounce
On bullion from 750½@600½ parts gold, 6 cents per ounce.
On bullion from 750½@600½ parts gold, 8 cents per ounce
Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars

FOR COINING GOLD.

This charge will be the same as at the Mint—a half of one per cent.—and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us

RETURNS IN COIN IN FORTY-EIGHT HOURS

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint

Gold bars of other Assayers, in good standing, will be cashed by us at the highest market rate

Drafts and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co's Express

CHARGES AT U. S. BRANCH MINT.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that institution:

For refining bullion under 800 parts gold, 8 cents per ounce
For refining bullion from 800½@600 parts gold, 5 cents per ounce
For refining bullion from 600½@750 parts gold, 7 cents per ounce.
For refining bullion from 750½@830 parts gold, 11 cents per ounce.
For refining bullion from 830½@940½ parts gold, 14 cents per ounce
For refining bullion for coinage is half of one per cent., and the charge for making fine silver bars, the same.

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent.—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage

$30 par to equal Mint return, at refining charge of 16 cents
$45 par to equal Mint return, at refining charge of 14 cents
$65 par to equal San Francisco A. & R. Works return, at refining charge of 8 cents mh1d2p3m

New York Gold Quotations..... .... 141½

Driving Cattle Thefts.—From the *Enterprise* of the 11th, we clip the following. On Monday last the County Court met in this city, for the April term 1867, Judge W. Strong presiding. David Cutting having declined to act as guardian for W. W. Harper, O. E. Tracy was appointed guardian for W. W. Harper. Other minor matters in Probate were disposed of. On Tuesday the Board of Commissioners assembled. Several accounts against the county were allowed, and bills drawn in favor of the holders. J. W. Ferguson was appointed constable for the precinct of Oregon City, and E. L. Caldwell was appointed to the place of E. T. Wheeler resigned the office of county surveyor, and A. L. Campbell was appointed to the place. An application for an appropriation to repair the Deep Creek bridge, 5,000 feet of lumber was awarded. A new road was laid out from Eagon & Garrett's mill to the road line south of Oregon City. $275 50 was remitted to the Oregon City Manufacturing Company for taxes assessed in the assessment of C. O. Boynton made in 1865. At the farmers' meeting, held in this city on the 1st inst. of Tuesday last, April 2, 1867, the "Clackamas County Agricultural Society" was organized by the election of C. N. Beatty, President; Wm. Elliott, Vice President; D. C. Ireland, Secretary, and J. R. Rathbun, Treasurer. A committee of three, consisting of the President, Secretary, and Major Rhoades, were appointed to draft a constitution and by-laws for the government of the organization. A committee of fifteen persons, consisting of Messrs. Wm. P. Burns, Alfred Marquam, George Abernethy, Joseph Young, Harrison Wright, Arthur Warner, L. L. Lewelling, Jesse Moreland, J. L. Barlow, J. E. Ebbley, A. E. Ebbley, Mr McConnell, Joseph Ringo, Mr Cobb and J. H. Lambert, were appointed to solicit subscriptions from the public, to be paid into the hands of the society on or before June 1st, 1867, to enable the society to hold a fair the ensuing fall. A committee of five was appointed consisting of Messrs. Elliott, Christian Dierdorff, J. L. Barlow, Joseph Young and John Krause, to whom was designated the duty of securing grounds upon which the fair may be held, and the committee were instructed to report what ground could be purchased, leased or secured for the purpose. The President and Secretary were instructed to correspond with parties in Multnomah, Washington, Yamhill and Polk counties, informing them of the organization of the Society, and asking the co-operation of such in getting up the First Annual Fair. The President, Vice President and Secretary were appointed a committee to address the people of this county for such purpose from the Agricultural Society. The ch was a general good time enjoyed, and the meeting adjourned to reassemble on the 1st day, May 1st, 1867, at twelve o'clock meridian to hear the various reports.

For San Francisco.—The steamship *Continental* will leave on Saturday evening for San Francisco, with the following list of passengers: J F Bloch, Mrs A Holbrook, Mrs Holbrook, Dr A H Steele, U S A, W M Borthwick, Mrs Howell, A Meyers, George Rodgers, Edward Howell, J Sola, wife and 3 children, L Alvirez, L Poly, J Greenbaum, Lewis Beer, James Dept W Rumwell, J L Boone, W Monteith, Mrs and 3 children, A O Pease and wife, Mrs M J M Herbert, J P Sheridan, wife and child, Miss M Keeler, wife and child, Geo A Eden, J Bamford and wife, James L Smith, C C Bushnell, A B Kern, Wells Fargo & Co's and 10 in the steerage.

Petit Jury.—Jack Gilmore is charged in the Recorder's Court with indecent exposure of his person on the 5th inst. There is another charge against him for assault and battery while making an arrest. Mike Seller charged with assault and battery upon Thomas Jones, name unknown, was yesterday found guilty. The hall of Rawley's building on Stark street, taken to jail by Deputy Marshal Saunders. The cases will be before the Recorder this morning.

Mr. P. J. Malone, one of the veteran residents of the Pacific coast, is at present in this city, and arrived in this city yesterday. He has just returned from a visit to the Penitentiary of Idaho, where he has spent the greater part of the last two years. He is about to return to Idaho, by way of Umpqua valley, where he has contracts. Mr. Malone, notwithstanding his hard experience with the newspaper press, is still wedded to his profession as a short-hand reporter he has no superior on this coast, and there are few abler writers.

Steamer Mayflower.—The *Enterprise* says The State Telegraph Company have contracted at this station [Oregon City] with Miller & Pease, for new poles sufficient to completely repair the line between Portland and Salem. The contracts will be made at other stations.... The 15th inst. Col. Whittlesey will leave Portland for the purpose of thoroughly repairing the line of the State Telegraph line, between that point and San Francisco.

Steamer Shubrick.—The following are the names of passengers per steamer *Continental*, to San Francisco, Saturday, April 6th:

Wells Fargo & Co.....	$20,000
Ladd & Tilton.....	5,000
Smith Bros.....	4,000
.....	
.....	$32,000

Circuit Court.—The services at the Court-house were attended by very large congregations on Sunday afternoon and evening. The court room was filled, and by 7 o'clock, of over one thousand and yet there was no room anywhere within hearing distance of the speaker. Mr. Earle has preached in this city not less than one each day from the 26th March to the 7th inst., and each time to full or crowded churches.

Circuit Court.—On Saturday, April 6th, the following cases were had: L. Dexter was appointed a Justice for South Portland precinct, vice J. G. Corey, resigned. The executors of the estate of C. N. Hamilton, deceased, were allowed till the May term of Court to file their account. And an order was entered for sale of personal property. There being a vacancy in the office of Justice of the Peace in Multnomah precinct, J. Johnson was appointed. The Court adjourned.

Circuit Court.—On Saturday the following cases were had: James Ward, drunk and lying on the sidewalk; fined $5 and costs. Ward plead guilty. Having been in jail over night he looked the first appearance, he was discharged. Wm. Hall, disorderly conduct, breaking windows in the house on Front street; tried and fined $10 and costs.

Steamer Continental.—The steamship *Continental* took the following freight. 807 qr sks flour, 1,000 sks potatoes, 30 pkgs bacon, 18 boxes eggs, 3 bales dried fruit, 225 gunnies onions, 2,067 hides approximately, 3 Merida leather, 2 cases cigars, 14 cases merchandise.

For the Steamer Fidelitor.—The *Fidelitor* sailed this evening for Victoria, taking the following freight: 1,400 qr sks flour, 45 boxes apples, 161 gunnies and bbls dried apples, 16 boxes dried peaches, 1 package machine, 13 kegs nails, and 8 pkgs merchandise.

Steam Pump.—Mr. Mercer has removed the use of the steam-puller and is having an attachment made to his engine to be used as a force pump for the purpose of water to sub-marine hose. It is to be employed in raising the sand from the *Dec de Lorger*.

Launched.—The barkentine *Hattenburg* will be launched to-day, to take in a part cargo of lumber. She already has received some lumber here. The balance of her cargo will be sent down to her by the steamer who she gets ready for it.

For Victoria.—Arrived per steamer *Alert*, from Victoria City, Saturday, April 6th: 675 boxes apples, 50 bbls produce, 38 boxes do, 2 coops chickens, 05 boxes bacon, 25 cases lard, 2 rolls leather, 2 bales woolens, 90 bags feed.

Woolen Mills.—While the larger woolen mills of the country are doubling their machinery and capacities for manufacturing, the little Sitkendale mill is not getting a fair share of machinery for that mill came up on the last trip.

Among the Passengers by the *Continental*.—Among the passengers by the *Continental* for San Francisco were Mr. Geo. A. Eiles and family, of Salem, who have been for the Eastern States on a visit of a few months. Mr. Eiles is the present Clerk of Marion county.

The schooner *J. C. Champion*, Capt. Quick, cleared from this port on Saturday, the 6th, with 320 qr sks flour, a threshing machine and a lot of general merchandise.

Relief Fund.—The sum of $707 50 has been collected in the village of Vancouver and paid over to Dr. Tolmie, the local treasurer of the Irish Relief Fund.

Arrival.—This steamship arrived at San Francisco on Monday noon, sixty-four hours from the Columbia bar.

Telegraph.—The telegraph announces the sailing of the steamer *Ajax* for this port on Saturday.

Mail.—We have some new papers from McCorkle this week to distribute.

Miss Braddock Remarks upon Women.—Strong remarks.—If you don't marry them they despise you; if you do, they abuse you. If you don't let them have their own way they hate you; if you do they will rule you. If they see a better looking fellow than yours, off with one of Barman Bros. Best Suits of Clothing and get married and then you won't run away from you. Barman Bros is also the Pacific Shirt Manufactory Co.'s Depot for Oregon.

Street Rumors and Fare.—While the most of the citizens of Portland are discussing the effect of the withdrawal of the opposition steamers, Barman Bros are busy supplying demands at their stores for customers, in clothing and gents' furnishing goods. There is no use in talking when business pays better. Barman Bros. are agents for the Pacific Shirt Manufactory.

Where can we get our meals at any time in the day? At the Lafayette Restaurant, First street, below Stark, and nearly by the Wells, Fargo & Co.

Family Dye Colors.—After a careful and continuous use of the *Family Dye Colors* of Howe & Stevens for five years, the people with one voice have declared enthusiastic in their favor. It would be strange if they did not, for they are the only dyes in the market people will use. If, neatly used, safe—what wonder they are liked.—Sold by Smith & Harris.

Found at the American Exchange.—Positive, J. L. Steel, E. G. Ingalls, Wood, G. F. White, J. Brennor, J.

H. PARKER J. W. STEVENS.

PARKER & STEVENS,
ATTORNEYS AND COUNSELORS-AT-LAW.

Corner of Front and Alder Streets. dec17d3ptf

HELMBOLD'S
FLUID EXTRACT BUCHU
Is a certain cure for diseases of the BLADDER, KIDNEYS, GRAVEL, DROPSY, ORGANIC WEAKNESS, FEMALE COMPLAINTS, GENERAL DEBILITY,
and all diseases of the URINARY ORGANS,
whether existing in MALE OR FEMALE,
from whatever cause originating and no matter of HOW LONG STANDING.
Diseases of these organs require the use of a diuretic. If no treatment is submitted to, Consumption or Insanity may ensue. Our flesh and blood are supported from these sources, and the
HEALTH AND HAPPINESS,
and that of Posterity, depends upon prompt use of a reliable remedy.
HELMBOLD'S EXTRACT BUCHU,
Established upwards of 18 years, prepared by H. T. HELMBOLD, Druggist,
594 Broadway, New York, and
104 South 10th Street, Philadelphia, Pa.

PERRY DAVIS' VEGETABLE PAIN KILLER.
THE GREAT FAMILY MEDICINE OF THE AGE!
Pain Killer taken internally, should be adulterated with milk or water, and sweetened with sugar if desired, or made into a syrup with molasses. For a cough, a few drops on sugar eaten will be more effective than anything else. For sore throat, gargle the throat with a mixture of Pain Killer and water, and relief is immediate and the cure positive.
It should not be forgotten that the Pain Killer is equally as good to take internally as to use externally. Each bottle is wrapped with full directions for its use. Dyspepsia can be and is cured every day by the use of Perry Davis' Pain Killer. This is the most wonderful and valuable medicine ever known for this disease. Its action upon the system is entirely different from any other preparation known. The patient, while taking this medicine, may eat anything the appetite craves. Sold by all medicine dealers.
mh20d&wlm

THE GLORY OF MAN IS STRENGTH.—Therefore the nervous and debilitated should immediately use HELMBOLD'S EXTRACT BUCHU.

Bronchitis or Chronic Sore Throat.—It is attended with irritation of the bronchial tubes, which carries the air we breathe into the lungs. The irritation produces sore throat, hoarseness, coughing, and sometimes spitting of matter streaked with blood. If it is neglected it will extend down to the lungs, and settles into confirmed consumption. ALLEN'S LUNG BALSAM will be found a most valuable remedy for curing this disease, and prevent its running into the consumption. For sale by dealers in family medicine generally. 1aDO

HELMBOLD'S EXTRACT BUCHU and IMPROVED ROSE WASH cures secret and delicate disorders in all their stages, at little expense, little or no change in diet, no inconvenience and no exposure. It is pleasant in taste and odor, immediate in its action, and free from all injurious properties.

Female complaints should be cured, as they surely can be, by a few doses of AYER'S SARSAPARILLA.

HELMBOLD'S EXTRACT BUCHU gives health and vigor to the frame and bloom to the pallid cheek. Debility is accompanied by many alarming symptoms, and if no treatment is submitted to, consumption, insanity, or epileptic fits ensue.

GOVERNMENT PROPOSALS.

CHIEF QUARTERMASTER'S OFFICE,
DEPARTMENT OF THE COLUMBIA,
PORTLAND, Oregon, April 4, 1867.

SEALED PROPOSALS will be received until 12 o'clock M., April 15th, 1867, for receiving MILITARY STORES at Vancouver Depot, W. T., and transporting the same as follows:

To Fort Klamath, Oregon, 35 tons, more or less.

RELIANCE

Light of the Hearth.

She comes with fairy footsteps;
Softly the echoes fall;
And her shadow plays like a summer shade
Across the garden wall.
The golden light is dancing bright,
'Mid the masses of her hair
And her full young locks are waving free
To the wooing of the air

Like a sportive fawn she bounds th
So gleefully along,
As the wild young bird she carolsth
The burden of her song
The summer flowers are clustering thick
Around her dancing feet,
And on her cheek the summer breeze
Is breathing soft and sweet

The very sunbeams seems to linger
Above her hely head,
And the wild flower at her coming
Their richest fragrance she!
And O, how lovely light and fragrance
Mingle in the light within!
O, how fondly do they nestle
Round the soul that knows no sin.

She comes the spirit of our childhood—
A thing of mortal birth,
Yet breathing still a breath of Heaven,
To redeem her from the earth
She comes in bright-robed innocence,
Unsullied by blot or blight,
And passeth by our wayward path,
A gleam of angel light

O, blessed things are children!
The gift of heavenly love!
They stand betwixt our worldly hearts
And better things above.
They link us with the spirit world
By purity and truth,
And keep our hearts still fresh and young,
With the presence of their youth.

The Reconstruction Bill.

In the United States Senate, February 23d, the Reconstruction bill was taken up. After debate the amendments of the House were concurred in by the following vote:

Ayes—Messrs Brown, Cattell, Chandler, Conness, Cragin, Creswell, Edmunds, Fessenden, Fogg, Foster, Howler, Frelinghuysen, Harris, Henderson, Howard, Howe, Johnson, Kirkwood, Lane, Morgan, Morrill, Poland, Pomeroy, Ramsey, Ross, Sherman, Stewart, Sumner, Trumbull, Van Winkle, Wade, Willey, Williams, Wilson and Yates 35.

Noes Messrs. Bookalow, Cowan, Davis, Hendricks, Nesmith, Patterson and Saulsbury—7.

The following is the bill as passed by both Houses:

Whereas, no legal State Governments or adequate protection for life or property now exists in the rebel States of Virginia, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Louisiana, Florida, Texas and Arkansas; and whereas it is necessary that peace and good order should be preserved in said States, until loyal and republican State Governments can be legally established; therefore,

Be it enacted, etc., That said rebel States shall be divided into military districts and made subject to the military authority of the United States, as hereinafter mentioned; and for that purpose Virginia shall constitute the First District; North Carolina and South Carolina the Second District; Georgia, Alabama and Florida the Third District; Mississippi and Arkansas the Fourth District, and Louisiana and Texas the Fifth District.

Sec. 2. That it shall be the duty of the President to assign to the command of each of said districts an officer of the army not below the rank of Brigadier General, and to detail a sufficient military force to enable such officer to perform his duties and enforce his authority within the district to which he is assigned.

Sec. 3. That it shall be the duty of each officer assigned as aforesaid to protect all persons in their rights of person or property, to suppress insurrection, disorder and violence, and to punish or cause to be punished all disturbers of the public peace and criminals, and to this end he may allow local civil tribunals to take jurisdiction of and punish offenders, or when in his judgment it may be necessary for the trial of offenders, he shall have power to organize military committees or tribunals for that purpose; and all interference under color of State authority with the exercise of military authority under this Act shall be null and void.

Sec. 4. That all persons put under military arrest by virtue of this Act shall be tried without unnecessary delay, and no cruel or unusual punishment shall be inflicted, and no sentence of any military commission or tribunal hereby authorized relating to the life or liberty of any person shall be executed or enforced until it is approved by the officer in command of the district, and the laws and regulations for the government of the army shall not be altered by this Act, except in so far as they may conflict with its provisions.

Sec. 5. That when the people of any one of said rebel States shall have formed a Constitution and Government in conformity with the Constitution of the United States in all respects, framed by a Convention of delegates elected by the male citizens of said State twenty-one years old and upwards, of whatever race, color or previous condition, who have been residents in said State for one year previous to the day of such election, except such as may be disfranchised for participation in the rebellion, or for felony at common law, and when such Constitution shall provide that the elective franchise shall be enjoyed by all such persons as have the qualifications herein stated for electors of delegates, and when such Constitution shall be ratified by a majority of persons voting upon the question of ratification who are qualified as electors for delegates, and when such Constitution shall have been submitted to Congress for examination and approval, and Congress shall have approved the same, and when it shall have been duly ratified by a vote of its Legislature, elected under said Constitution, shall have adopted the amendment to the Constitution of the United States proposed by the Thirty-Ninth Congress, known as Article 14, and when said article shall have become a part of the Constitution of the United States, such State shall be entitled to representation in Congress, and Senators and Representatives shall be admitted therefrom on taking the oath prescribed by law, and then and thereafter the preceding sections of this Act shall be inoperative in said State; provided, that no person excluded from the privilege of holding office by said proposed amendment to the Constitution of the United States shall be eligible to be a member of a Convention to frame a Constitution under any of said rebel States; nor shall any such person vote for members of such Convention.

Sec. 6. That until the people of said rebel States shall by a law be admitted to representation in the Congress of the United States, any civil government that may exist therein shall be deemed provisional only, and shall be in all respects subordinate to the paramount authority of the United States at any time to abolish, modify, control and supercede the same; and in all elections to any office under such Provisional Governments all persons shall be entitled to vote, and none others, who are entitled to vote under the provisions of the 5th section of this Act; and no person shall be eligible to any office under the Provisional Governments who would be disqualified from holding office under the provisions of the 14th Article of said constitutional amendment.

NEGRO SUFFRAGE IN GEORGETOWN.—An election took place on February 25th, in Georgetown, for Mayor and Common Council. It was the first election in the District of Columbia at which the colored vote was counted. The registry shows 778 negroes and 1,350 whites. A detail of 145 men for duty was made, including the police of the town and the mounted force, in order to preserve the peace. At nine o'clock the polls were opened, and the rush of voters, without distinction of color, commenced. The votes of several colored men were rejected because they could not be identified, and a few on the ground of minority. This action of the judges of election delayed the colored voters somewhat, requiring them to make oath to their identity and age. Great exertions were made by each party to bring voters to the polls. During the entire day there was less of drunkenness and disorder than usual upon the 22d; although from an early hour the streets and corners in the vicinity of the polls were occupied by groups of citizens, without distinction of color, who were evidently deeply interested in the result of the election. The restaurants and tippling houses were closed during the day, and the Metropolitan police were constantly patroling the town. Charles D. Welsh, Radical, is elected by a majority of 96 votes over Henry Addison, the present Mayor, who was the Conservative or white man's candidate; but the larger number of Councilmen on the Addison ticket were elected. The vote for Mayor was as follows: Welsh, 1,819; Addison, 923.

A writer in the *Nashville Banner* has heard that northern speakers were going to Tennessee to keep the State for the radicals; he says:

"Be sure as there is a God in Heaven, if the Radicals inundate the State with northern speakers this year the Conservatives will do the same, and just so sure as this is done, so surely and certainly will it end in blood."

An exchange published not long since some verses containing these lines:

"I met her on the street,
And she showed her dirty feet."

The young lady referred to made complaint, and the editor corrects in his next paper. For "dirty" he substituted "dainty." This made the matter all right.

JOAN BILLINGS ON COURTSHIP.—Courtin is a luxury, it is ice water, it is the pin spell of the sole. The man who has never courted has lived in vain. He has been a blind man among landscapes, he has been a deff man in the land of hand organs and by the side of murmurin canals. Courtin is like two little springs of water that start out from under a rock at the foot of the mountain, and runs down hill, side by side, singin, dancin, spatterin each other, edyin and frothin, and kaskadin, now bildin under the bank, now full of shaddor, tyernsby they line, and then go slow I am in favor of long courtin, it gives the parties a chance to find out each other's trump cards. It is good exercise, and is just as innocent as 2 merino lambs.

Courtin is like strawberries and cream, wants to be did slow, and then you have got the flavor. I have seen folks get acquainted, fall in love, get married, settle down and get to work in three weeks from date.

This is the way that somo folks larn to trade, and skounts for the great number of allmighty mean mechanics and jobs they turn out.

Perhaps it is best I should state some good advice to young men who are about to court, with a view to matrimony, as it was.

In the first place, young man, you want to get your system awl rite, then find a young woman who is willing to be courted on the square.

The next thing is to find out how old she is, which you can do by askin her, and she will say she is sixteen years old, and this you will find won't be very far out of the way.

The next thing is to begin moderate, say once in every nite in the week for the fust six months, encreasin the dose as the patient seems to require.

It's a first rate way to court the girls mother a little on the start, for there is one thing a woman never dispises, and that is a little good courtin, if it is done on the square.

After the first year you will begin to get acquainted, and will begin to like the business.

There is one thing I always advise, that is not to swop fotographs oftener than once in every fourteen days unless you forget how the gal looks.

Occasionally you want to look sorry and draw in your wind as though you had a pain; this will aus the gal a teesin you to find out what ails yu.

Evenon meetins are a good thing to tend. It will keep your religion in tune, and if your gal happens to be there by accident, she can ask you to go home with her.

As a general thing I wouldn't brag on other girls much while I was courtin. It might look as though you knew too much..

If you court three weeks in this way, all the time on the square, if yu don't ax it is the slickest time of pure life, you can go to the cheap store and get measured for a new plug hat at my expense and pay for it.

"TOO MUCH PORK FOR A SHILLING."—Dr. McFarland, of the Illinois Insane Asylum, communicates the following to the Jacksonville (Ill.) *Journal*.

"The death of N. P. Willis, the poet, allows the origin of the ancient saying at the head of this communication to be explained: When Willis was a lad of sixteen, he was sent to receive a preparatory collegiate education at the hands of the father of your correspondent, Rev. Dr. M——, of ——, N. H., in whose family he took up his residence, and under whose instruction both his morals and his classical attainments were expected to derive great advantage. He is remembered by the writer as a boy particularly 'fast' for those primitive times, wearing a 'roundabout' jacket and having a round, good humored face, handsomely set off by a profusion of light brown curly hair, in which it is well known he took pride, even in advanced life. On the Fourth of July, 1822, a fishing party was formed to celebrate the day in a manner peculiar to anglers, or the banks of the adjacent Merrimack, and Nathaniel had permission to join the party—the careful Doctor having first learned that the provision chest was to contain only salt pork, which was to be cooked with the fish.

But as is apt to be the case on such occasions, certain cordials, such as *Annis, Noyau*, and others now equally out of date, found their way to the scene of the festivities, in the pockets of the older anglers; and Nathaniel, before night, was decidedly the worse from frequent libations, on which he had expended the best part of the 'pistareen' given him by the doctor in the morning. He found his way home, and in the twilight reached his bed room undiscovered. But his retchings soon brought the hired girl to his bedside, who, in her alarm, ran to the 'study' for the doctor, who shortly appeared, to find his pupil bent over the side of the bed in the extreme of gastric agony.

'Why, Nathaniel,' exclaimed the grieved doctor, 'where have you been? What have you been doing? Have you spent all of your shilling?'

'Please, sir,' gasped the agonized repentant, 'it was the pork! I ate, and ate, till my stomach is just ready to bust. Indeed, sir, I never knew so much pork before to go for a shilling!'

The saying became current that Nat. Willis got too much pork for his shilling."

BYRON'S POEMS.—The London *Reader* has the following:

The copyright of all Byron's pieces has not yet ceased to be the property of Mr. Murrey, and besides, he has the invaluable advantage of possessing the original manuscript in the poet's handwriting. Often as "Lord Byron" has been printed, it would seem that a careful collation of these has disclosed the existence of numerous errors in the text of every preceding edition. Mr. Murrey has wisely resolved to check unprincipled competition—unprincipled because the production are necessarily imperfect, and a fraud upon the public—by issuing a pearl edition, printed in crown octavo and on toned paper, so perfect, and at such a price that no one who sees it will be seduced by any counterfeit. We have read somewhere that Byron left behind him some fragments of a fifth canto of *Childe Harrold* containing amongst other things, a description of an eruption of Stromboli, seen by the poet on his last voyage to Greece, and also a plan of the continuation of *Don Juan*. Are these in the possession of Mr. Murrey; and does he reserve them for a still later edition? He is very fond of tantalizing the literary world with promises of good things, but no prospect of this kind has been held out. These remains must be known to no small number of persons, yet the secret has been well kept.

The 26th of April will be celebrated by the Odd Fellows throughout the country as a day of special thanksgiving. The observance will be in accordance with instructions from the Grand Sire, and will commemorate the preservation of the Order during the war, and its peaceful reunion.

The Chinese have numerous diseases of the eyes; every fifth man having some ocular defect, every fifteenth losing his sight altogether. They attribute it to the excessive use of rice, and constant shaving.

GOVERNMENT PROPOSALS.

CHIEF QUARTERMASTER'S OFFICE,
DEPARTMENT OF THE COLUMBIA,
PORTLAND, Oregon, April 2, 1867.

SEALED PROPOSALS will be received at the above office up to 12 M on Thursday, the 25th of April, 1867, for the delivery on or about the 20th of May, 1867, at Fort Vancouver Depot, W. T., or at Fort Dalles, Oregon, (at the option of the Quartermaster) of

Fifty Team Mules and Twenty-Five Pack Mules.

Said mules to be fourteen hands high, not under two (2) nor over eight (8) years old, strong, sound, compact and well adapted to the service for which they are required, subject to the inspection of a Board detailed for that purpose.

Bids to be in duplicate, state the price in coin for the delivery at each place and give the names of not less than two responsible sureties for the faithful performance of any contract which may be awarded them under this advertisement

Bids will be received for each kind of mules, or the whole, at the option of the bidder

Bidders required to make a deposit of FIVE HUNDRED DOLLARS that they will accept any contract if awarded to them.

Payment to be made by equivalent in Legal Tenders at day of payment

Contracts made subject to the approval of the Department and Division Commanders

Contractors to pay for this advertisement

Bidders are invited to be present at the opening of the bids

The right to reject any or all bids is reserved.

E. R. DARNITT,
ap5d3td Asst Q. M. Gen'l.

PROPOSALS FOR FRESH BEEF.

CAPE DISAPPOINTMENT, W. T.,
March 27, 1867

SEALED PROPOSALS will be received by the undersigned, at his office, at Cape Disappointment, W. T., until 12 o'clock M. on the 20th of April next, for supplying FRESH BEEF for the use of the troops at this Post for the fiscal year ending June 30th, 1868

The beef to be of good marketable quality, and to be delivered at times and in quantities suitable for immediate issue.

Payment for the same to be made in coin or its equivalent in U. S. Legal Tender notes, and at the end of each month or as soon thereafter as funds are on hand for that purpose

The bids must be in duplicate, and accompanied by a guarantee from two responsible persons to the effect that if the proposal is accepted the contract will be executed

Contractors will be required to give good and sufficient surety, and both contractor and sureties will be required to take the oath of allegiance to the United States

The bids will be opened immediately on the expiration of the time for receiving them, when bidders are requested to be present

The right to reject all bids deemed unfavorable is reserved.

Bids to be endorsed on envelope "Proposals to Furnish Fresh Beef."

R. G. HOWELL,
ap1dlap1s Lt. 2d Art., A. C. S.

PROPOSALS FOR BEEF.

OFFICE OF THE A. C. S.
FORT STEVENS, OREGON,
March 10, 1867

SEALED PROPOSALS will be received by the undersigned at this office at Fort Stevens, Oregon, until 12 o'clock M. of the 30th day of APRIL, 1867, for supplying FRESH BEEF to the troops of this post for one year from the 1st day of July next.

The Beef to be of good and marketable quality, and delivered in equal proportions of fore and hind quarters, exclusive of necks, shanks, and kidney tallow, in such quantities and on such days as the commanding officer may direct. Payment to be made in gold coin or its equivalent in U. S. legal tender notes; payment at the end of each month or as soon thereafter as funds shall be received for that purpose.

Each bid must be accompanied with a Bond, with at least two sureties, for the faithful performance of the proposals contained in the bid. In case it is accepted, contractors will be required to give good and sufficient sureties for the faithful performance of the contract.

Bidders are invited to be present at the opening of the bids Proposals must be in duplicate on separate sheets of paper. Contracts made subject to the approval of Department and Division Commanders The undersigned reserves the right to reject any or all bids that may be offered.

Proposals to be endorsed, "Proposals to furnish Fresh Beef."

DR. HENLEY'S Fountain of Life!

THE

GREAT BLOOD PURIFIER!

IN EVERY PROGRESSIVE SCIENCE PERIODS ARRIVE when a new direction is imparted to its course. A single epoch proclaims a discovery of new facts and throws light which changes the whole aspect of the science. The present is an epoch of this kind, and this remedy, now offered to the public, in connection with the theory on which it is based, is destined to effect an entire revolution in the treatment of the diseases of

SCROFULA AND KING'S EVIL

by eradicating the disease entirely from the blood. The FOUNTAIN OF LIFE is composed entirely of vegetable extracts; it contains no Mercury or other mineral substance

The Proprietor and Discoverer of this Sovereign Remedy CHALLENGES THE WORLD to furnish anything from the days of Æsculapius down to the present time, in the arcana of Medical Science, which can vie with or excel the intrinsic properties of this Great Blood Purifier. Its value has been tested with the happiest effect in the most obstinate cases of Scrofula, that baffled the skill of the most eminent physicians in the world No matter what form the dreadful disease of SCROFULA and KING'S EVIL may have assumed, it can in no way be more fully and certainly arrested in its progress than by HENLEY'S GREAT BLOOD PURIFIER Thousands have been swept into their graves, who had they made a timely use of the FOUNTAIN OF LIFE, might now be enjoying the blessings of life and health It requires no article of testimonials and intrinsic value to sustain itself During the storm ordeal of public experiment the FOUNTAIN OF LIFE has stood the test trial, and not been found wanting

☞ Dr HENLEY guarantees to CURE any case of SCROFULA or KING'S EVIL in the world and eradicate the disease entirely from the system, or no charge made —provided they will secure him his pay when they are cured.

FOR REFERENCE:

I would refer you to L. L. Peck, of Portland, Oregon, and numbers of others, as to what a miraculous effect it had in a short time, in cases that had baffled the skill of physicians for years.

DR. WM HENLEY,
feb28d4ptf Portland, Oregon

DR. G. W. BROWN

HAS located in Portland, in CARTER'S NEW BUILDING, for the permanent cure of all private diseases, such as syphilis, gonorrhœa, gleet strictures &c. He also calls the attention of those suffering with

DISEASES OF THE EYES

to call at his office and be at once restored Surgical operations SKILFULLY performed on the EYES for film, cataract strabismus or cross eyes

Below are some of the many testimonials:

This is to certify that I, John B Judwan, was blind for over nine years, and I tried all means of a cure, and many doctors, and all of no effect, and I spent all the means I had. Finally, I had to become a county charge, and was taken to Dr G W. Brown, and examined my case to him, and misfortune, he at once commenced to treat my eyes, and now I am well, and commenced all these that are suffering with diseases of the eyes to call on Dr. G. W. Brown. The reason why I do this is to let suffering humanity know where they can be cured J. B JODWAN.

STATE OF OREGON, Marion County, ss—Subscribed and sworn to before me this 22d day of November, 1866
SETH R. HAMMER, Notary Public.
Savannah, Feb 10, 1866.

This is to certify that I was blind for over four months, and almost blind for one year and a half. I tried several eye doctors but received no benefit. I had almost given my case up as hopeless when fortunately I heard of Dr. G W Brown, now of Salem. I was induced to try him; he performed a surgical operation on my eyes, and gave me a cure. I soon began to recover, and in a short time I was perfectly cured. I do this in justice to one who rescued me from a fate worse than death, and also for the benefit of those who are laboring under similar afflictions that they may know where they can get relief. It is now about eight months since my eyes were cured and they still remain good. I can see to read the finest print without difficulty, and my eyes can bear the strongest light without pain

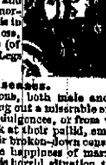
ALEXANDER MITCHELL.

Subscribed and sworn to before me this 21st day of July, A D 1866.
SETH R. HAMMER,
dec31tf Notary Public.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,



616 KEARNEY STREET,
NEAR CONNECTICUT,
San Francisco, Established in 1854,

for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgence, or from virulent blood taints in the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies and that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, darkspots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, aching about the loins, weakness of the limbs, confused vision, blotched pimples, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintance, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, nocturnal emissions, and frequent insanity. If relief is not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Persons at a distance may be CURED AT HOME, by addressing a letter to Doctor Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines securely forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Address DR. J. F. GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

Consultations FREE.

Prevention Better than Cure.
